Director, Standards (AART)

**Technical Arrangement
between
Civil Aviation Administration Of China (CAAC)
and
Transport Canada Civil Aviation (TCCA)
for
the Type Validation of Supplemental Type Certificate SA10-66
for the
installation of Equipment Bay Catwalk
on
aircraft model CL-600-2B19**

1.0 PURPOSE

This Technical Arrangement (TA) defines the working relationship between Transport Canada Civil Aviation (TCCA) and the Civil Aviation Administration of China (CAAC), to facilitate the CAAC validation of Transport Canada Supplemental Type Certificate (STC) SA10-66 to Flying Colours Corp. for the installation of Equipment Bay Catwalk on aircraft model CL-600-2B19.

2.0 OBJECTIVES

This TA is intended to accomplish the following objectives:

- (a) to define the working procedures under the respective responsibilities of each Authority:
 - (i) for the STC validation process; and
 - (ii) for subsequent post type validation activities.
- (b) to minimize redundant inspections, tests, demonstrations, evaluations, and approvals.

3.0 REQUIREMENT AND BASIS

The requirement for this TA stems from paragraph 2.2 of CAAC Document AP-21-01R2 dated 13 October 2006 (English version), Validation Procedures for Import of Civil Aviation Products and Parts.

4.0 DURATION

This TA shall become effective upon signature by both CAAC and TCCA. It will remain in effect for the duration of the type validation activities and as long as post type validation activities are taking place.

5.0 COMMUNICATION

- (1) The Aircraft Airworthiness Certification Department (CAAC-AAD) of CAAC and the Standards Branch (AART) of TCCA are responsible for the administration of this Technical Arrangement. TCCA Standards Branch (AART) will work in conjunction with the National Aircraft Certification Division–Prairie Northern Region identified in Appendix 1 that is the responsible TCCA office for this STC and ACS-NAI, who is facilitating this validation on behalf of Flying Colours Corp.
- (2) ACS-NAI will be the primary source for providing the technical support to CAAC. When requested, TCCA will provide the necessary assistance and support within its regulatory functions.
- (3) All communications between CAAC and TCCA related to the activities of this TA will be made in the English language or Chinese language accompanied by an English translation. The contact points for CAAC and TCCA are provided in Appendix 1.
 - (i) Any disagreement regarding the interpretation or application of this TA will be resolved by consultation between the CAAC and TCCA.
 - (ii) Unless otherwise specified, TCCA shall be copied of all correspondence between ACS-NAI, Flying Colours Corp. and CAAC related to the activities of this TA, so that TCCA can support ACS-NAI, Flying Colours Corp. and CAAC-AAD in the future.

6.0 STC VALIDATION ACTIVITIES

6.1 General

- (1) The subject of CAAC validation is Transport Canada Supplemental Type Certificate SA10-66, Issue 1 as approved on 08-31-2010.
- (2) The Transport Canada certification basis for this STC is TCCA Type Certificate Data Sheet A-131 Issue no. 41.

6.2 STC Validation

- (1) The CAAC certification basis for purposes of validation of the Transport Canada STC SA10-66 and issuance of a CAAC-Validated Supplemental Type Certificate (VSTC), plus any additional technical conditions notified.
- (2) CAAC will issue its own corresponding VSTC once it has satisfactorily completed review of the subject Transport Canada STC and its supporting data.

7.0 POST VALIDATION ACTIVITIES

(1) STC Design change approval:

- a) Design changes that result in the re-issuance of the TCCA STC SA10-66, Issue 1, which will constitute the basis for the issuance of the CAAC-VSTC under this TA, and will have to be validated by CAAC.
- b) All other design changes approved by TCCA or its Delegate will be considered approved by CAAC.

(2) Documentation approval:

Subject to paragraph 7.0 (1) a), information or instructions such as Service Bulletins, or Technical Instructions including any subsequent changes or revisions thereto, that are approved by TCCA or its appropriately authorized Delegate will be considered approved by the CAAC.

8.0 CONTINUED AIRWORTHINESS SUPPORT ACTIVITIES

- (1) CAAC will promptly notify TCCA of the existence of any unsafe condition associated with the design, manufacture, operation or maintenance of the subject STC.
- (2) In accordance with ICAO Annex 8, TCCA will promptly notify CAAC of any mandatory continuing airworthiness information that TCCA has found necessary for the continuing airworthiness and safe operation of aircraft equipped with the subject STC.
- (3) TCCA, upon request, will assist CAAC in establishing procedures deemed necessary by CAAC for maintaining the continuing airworthiness of aircraft equipped with the subject STC.
