## Regional Seminar on the Preparation, Conduct and Reporting of an ICAO Safety Oversight Audit

Beijing, China, 12 to 15 December 2006

Review of Audit Results

**Module 10**

# Module objective

---

At the end of this module, the participants will be familiar with the results of safety oversight audits conducted under the comprehensive systems approach.

The results will be presented and discussed by critical element sub-groups.

The participants will also have an opportunity to exchange audit results.

# Outline

---

- ❑ Areas of concern identified during CSA audits
- ❑ Analysis of audit results by critical element sub-groups
  - Primary aviation legislation
  - Specific operating regulations
  - State civil aviation system and safety oversight functions
  - Technical personnel qualification and training
  - Technical guidance, tools and the provision of safety-critical information
  - Licensing, certification, authorization and approval obligations
  - Resolution of safety concerns
- Exchange of audit experiences

# Areas of concern identified during CSA audits

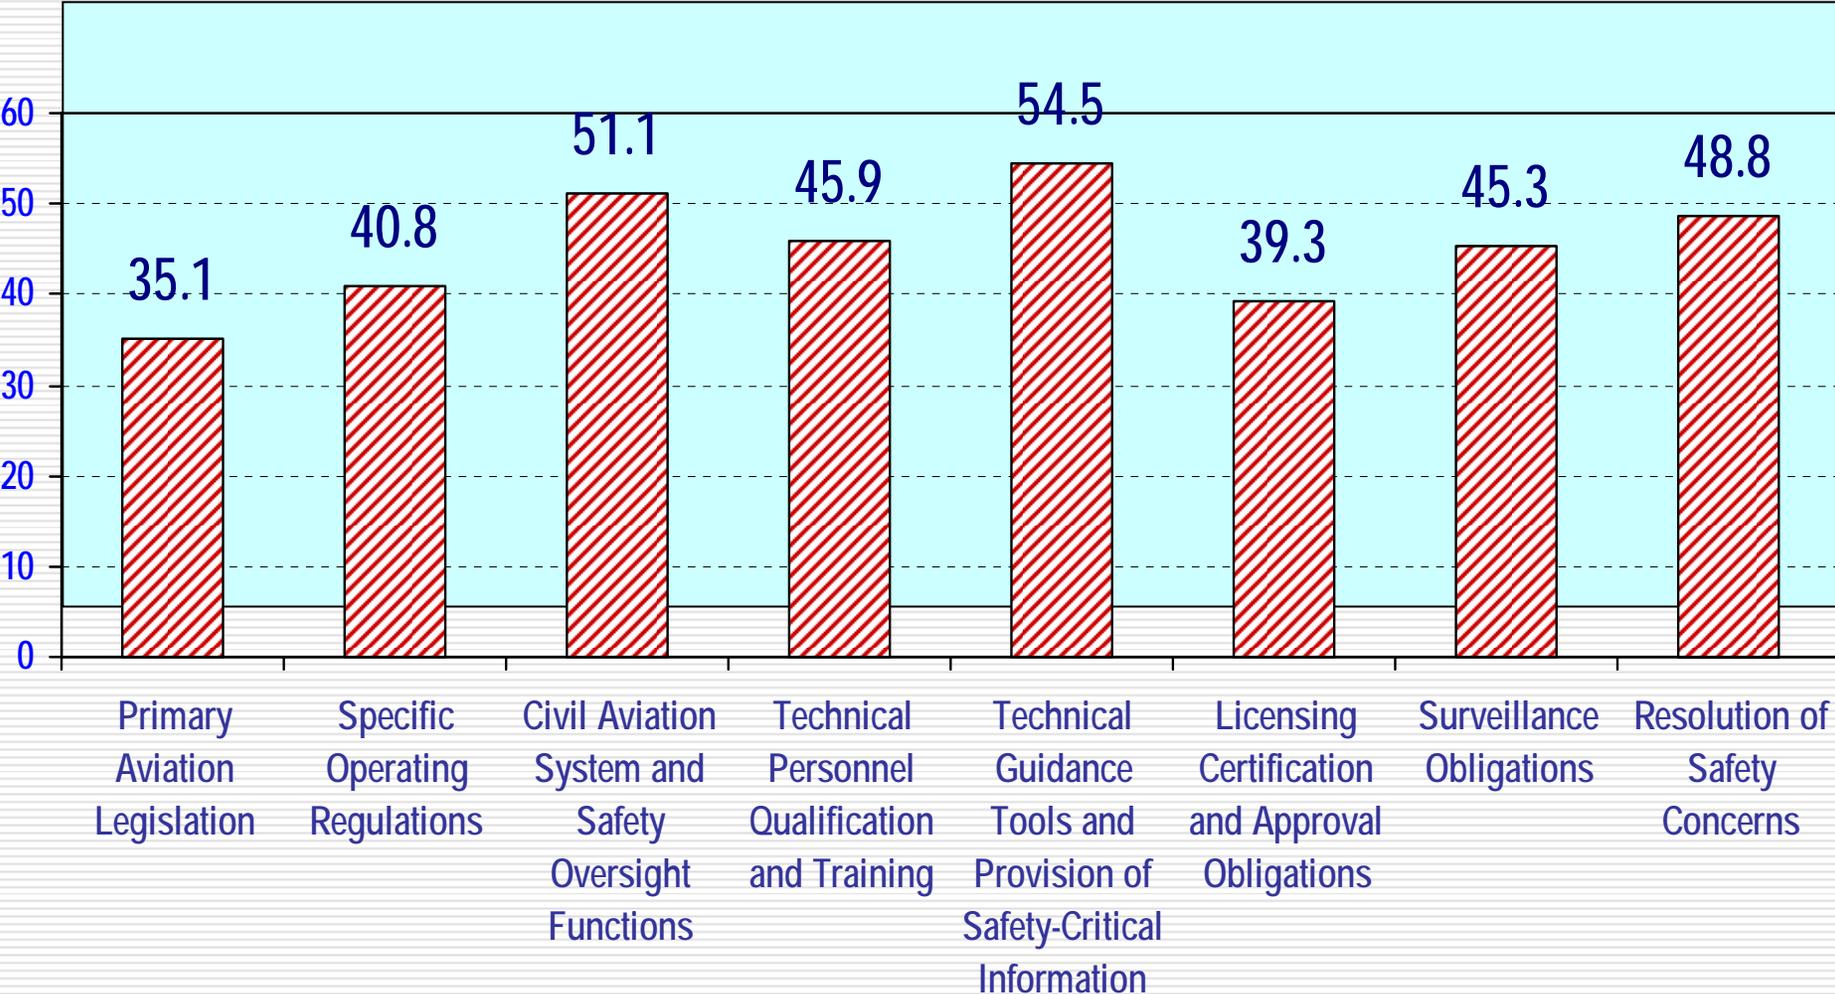

---

- ❑ Introduction of SARPs in legal framework
- ❑ Incorporation of Annex amendments and notification of differences
- ❑ Oversight of delegated tasks
- ❑ Establishment of staff qualifications and experience and development of training programmes
- ❑ Coordination amongst entities responsible for safety oversight
- ❑ Separation of the regulatory and service provision functions

# Results of the CSA Audits

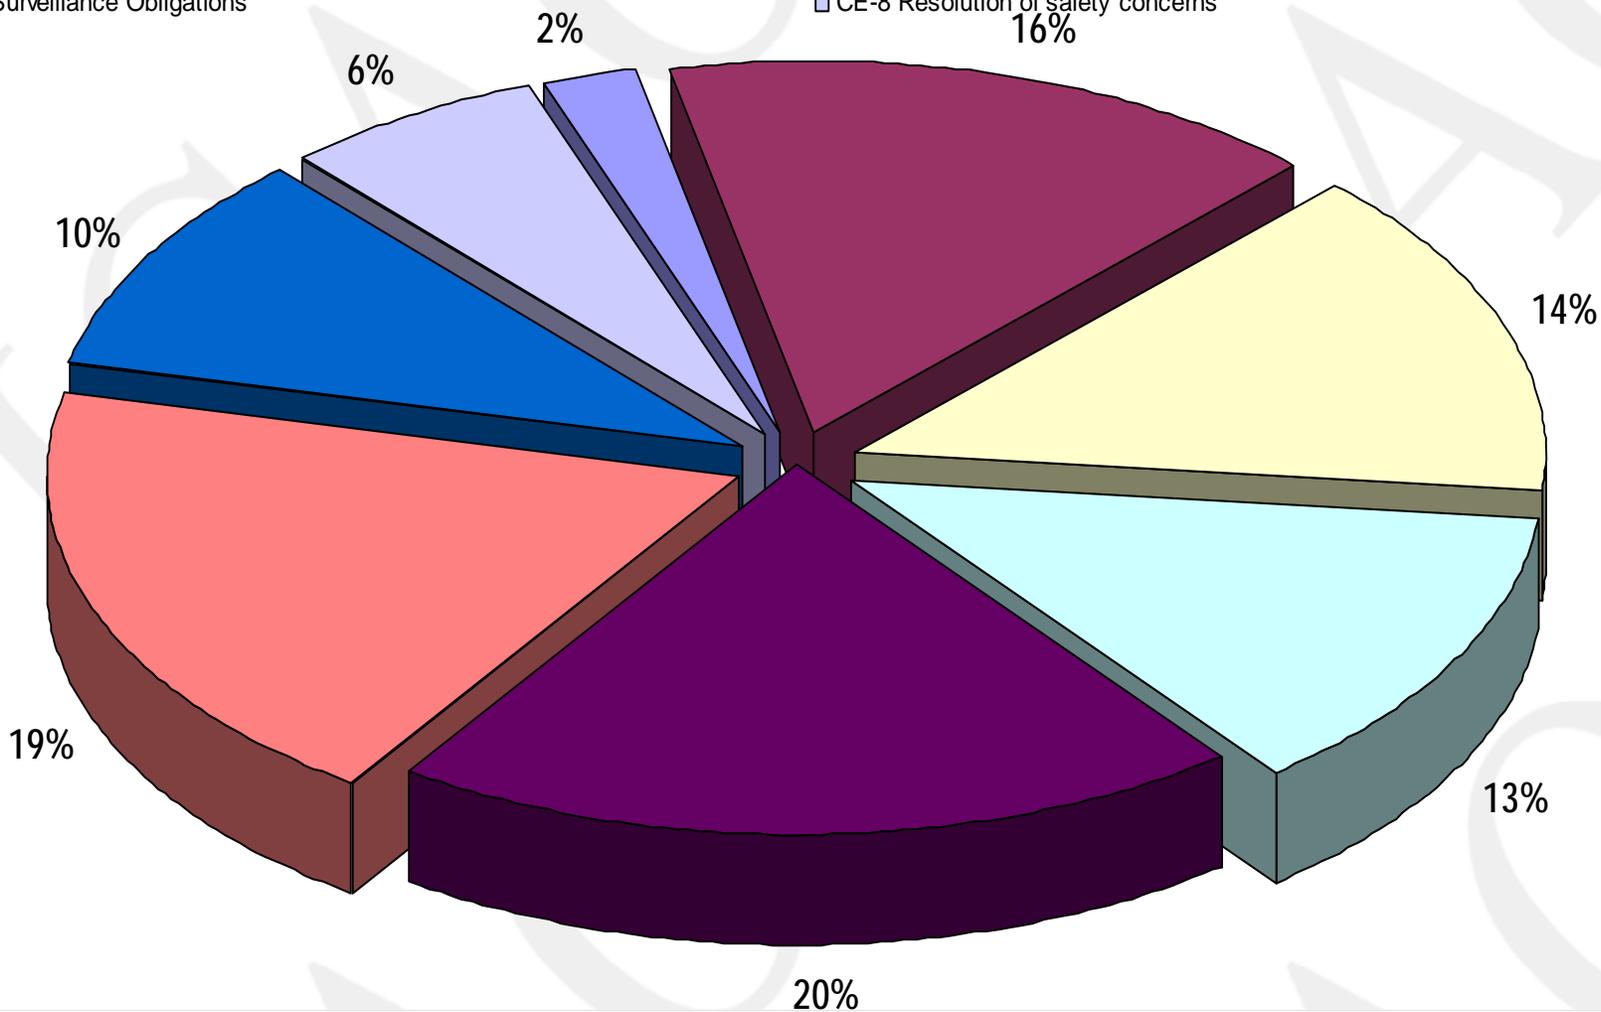

## Lack of Effective Implementation of the Critical Elements (%)

 Global – 31 States 45.1%

# Percentage of Protocol Findings by Critical Element Subgroups

- CE-1 Primary Aviation Legislation
- CE-2 Specific Operating Regulations
- CE-3 State civil aviation and oversight functions
- CE-4 Technical Personnel Qualifications and experience
- CE-5 Technical guidance, tools and the provision of safety-critical information
- CE-6 Licensing, certification, authorizations and approval obligations
- CE-7 Surveillance Obligations
- CE-8 Resolution of safety concerns

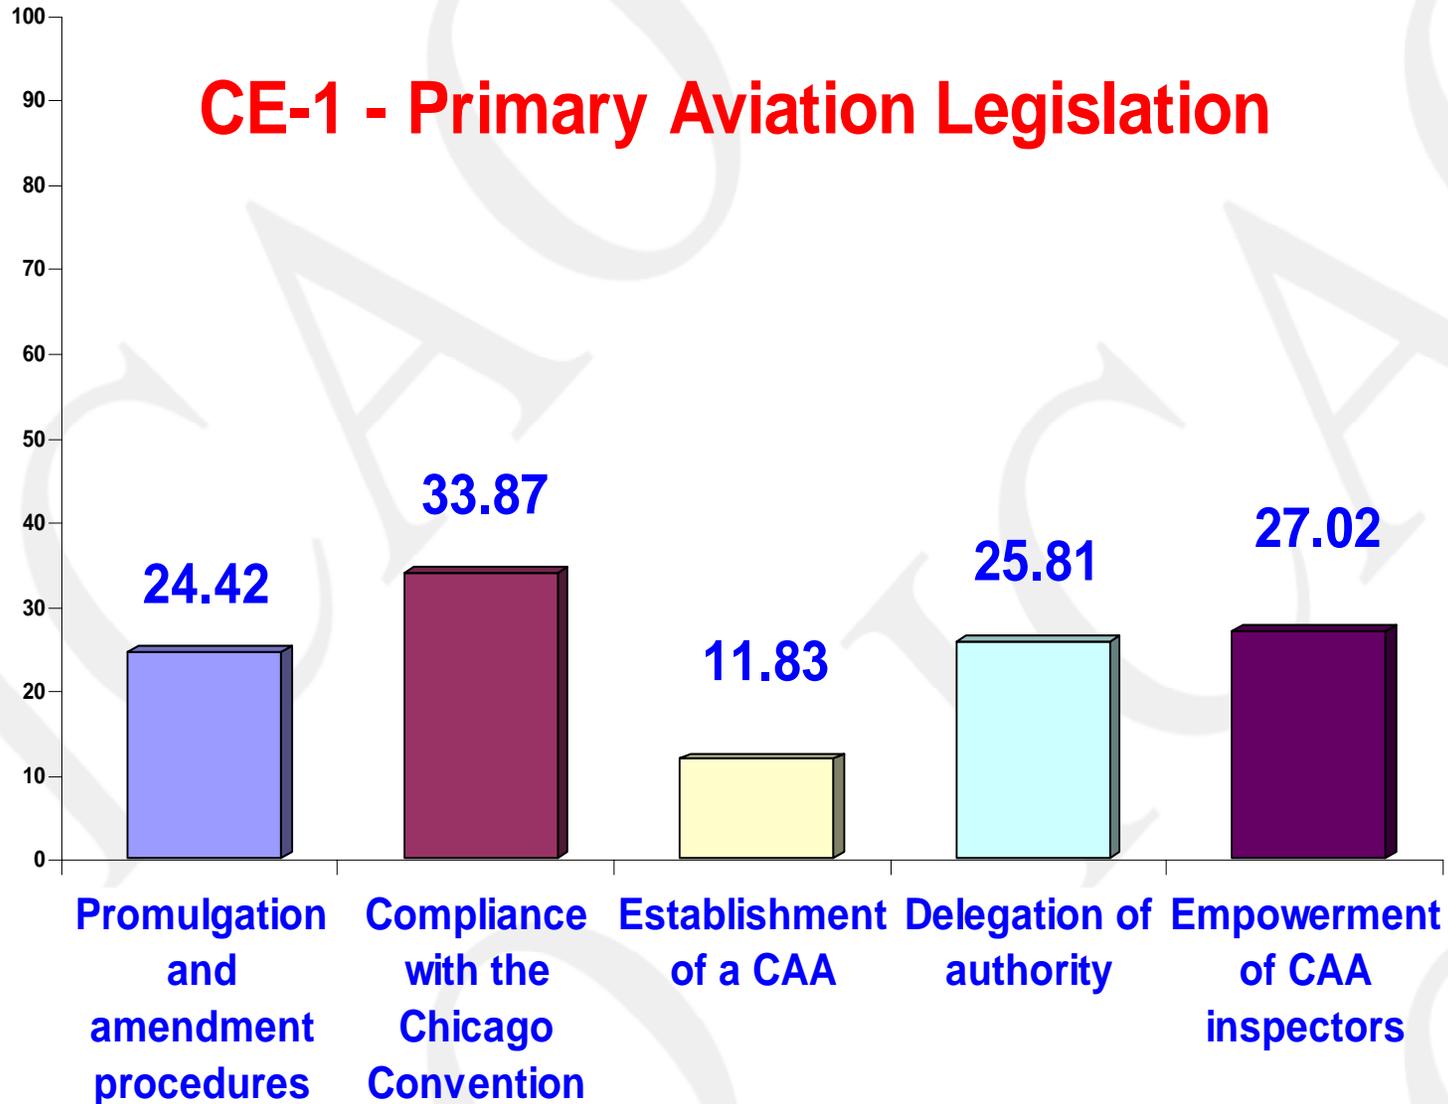

# Analysis of audit results

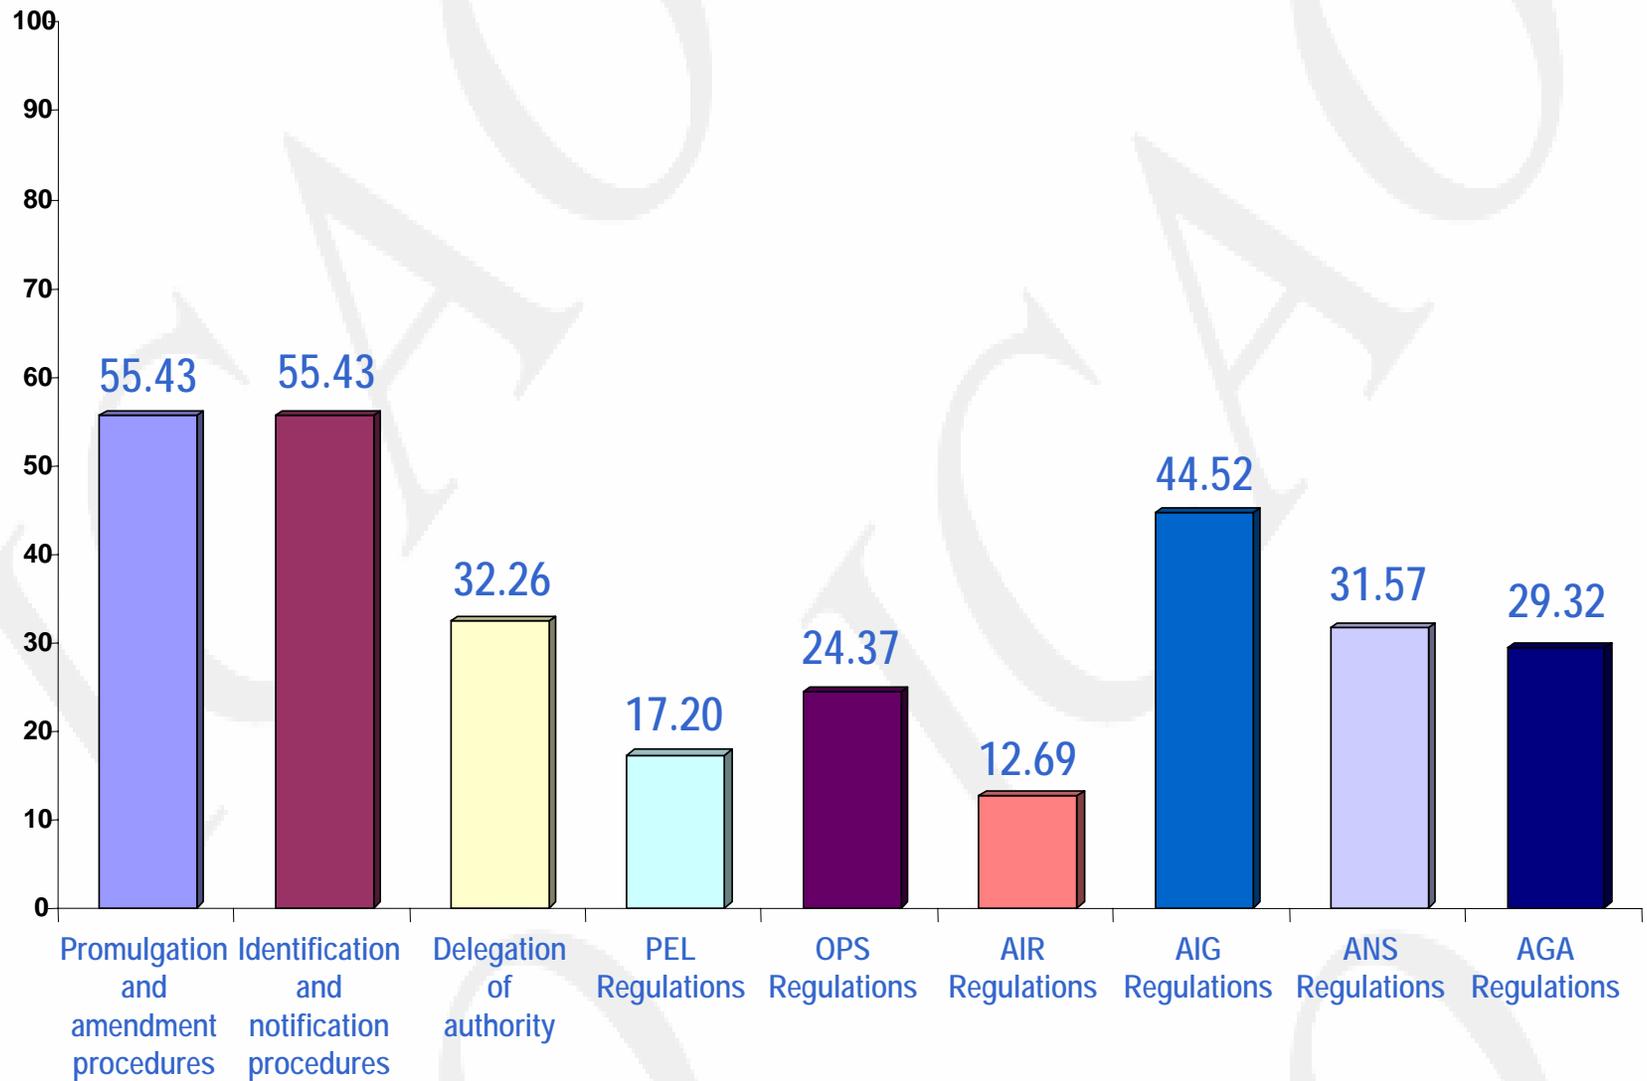

---

- ❑ The following graphs depict, for each critical element sub-group, the percentage of protocol questions found to be not satisfactory.
- ❑ These results are based on sample of 31 Contracting States audited under the comprehensive systems approach.

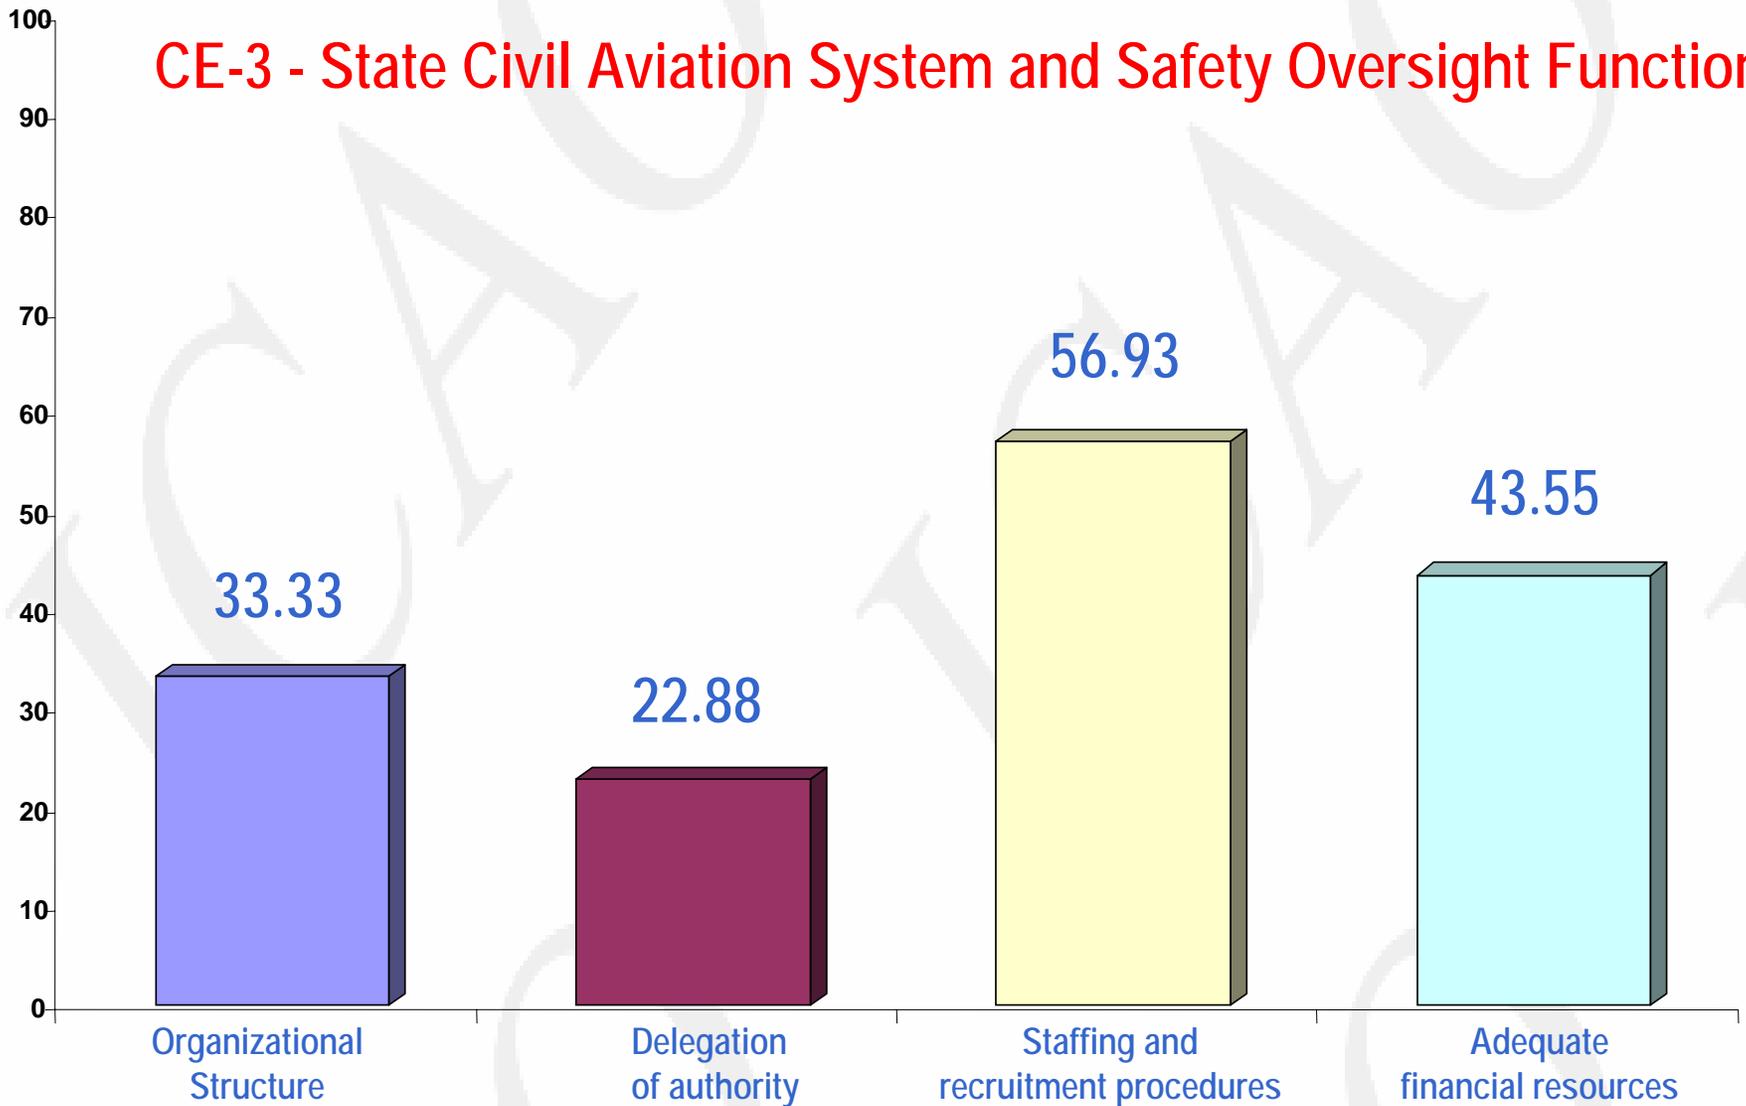

## CE-1 - Primary Aviation Legislation

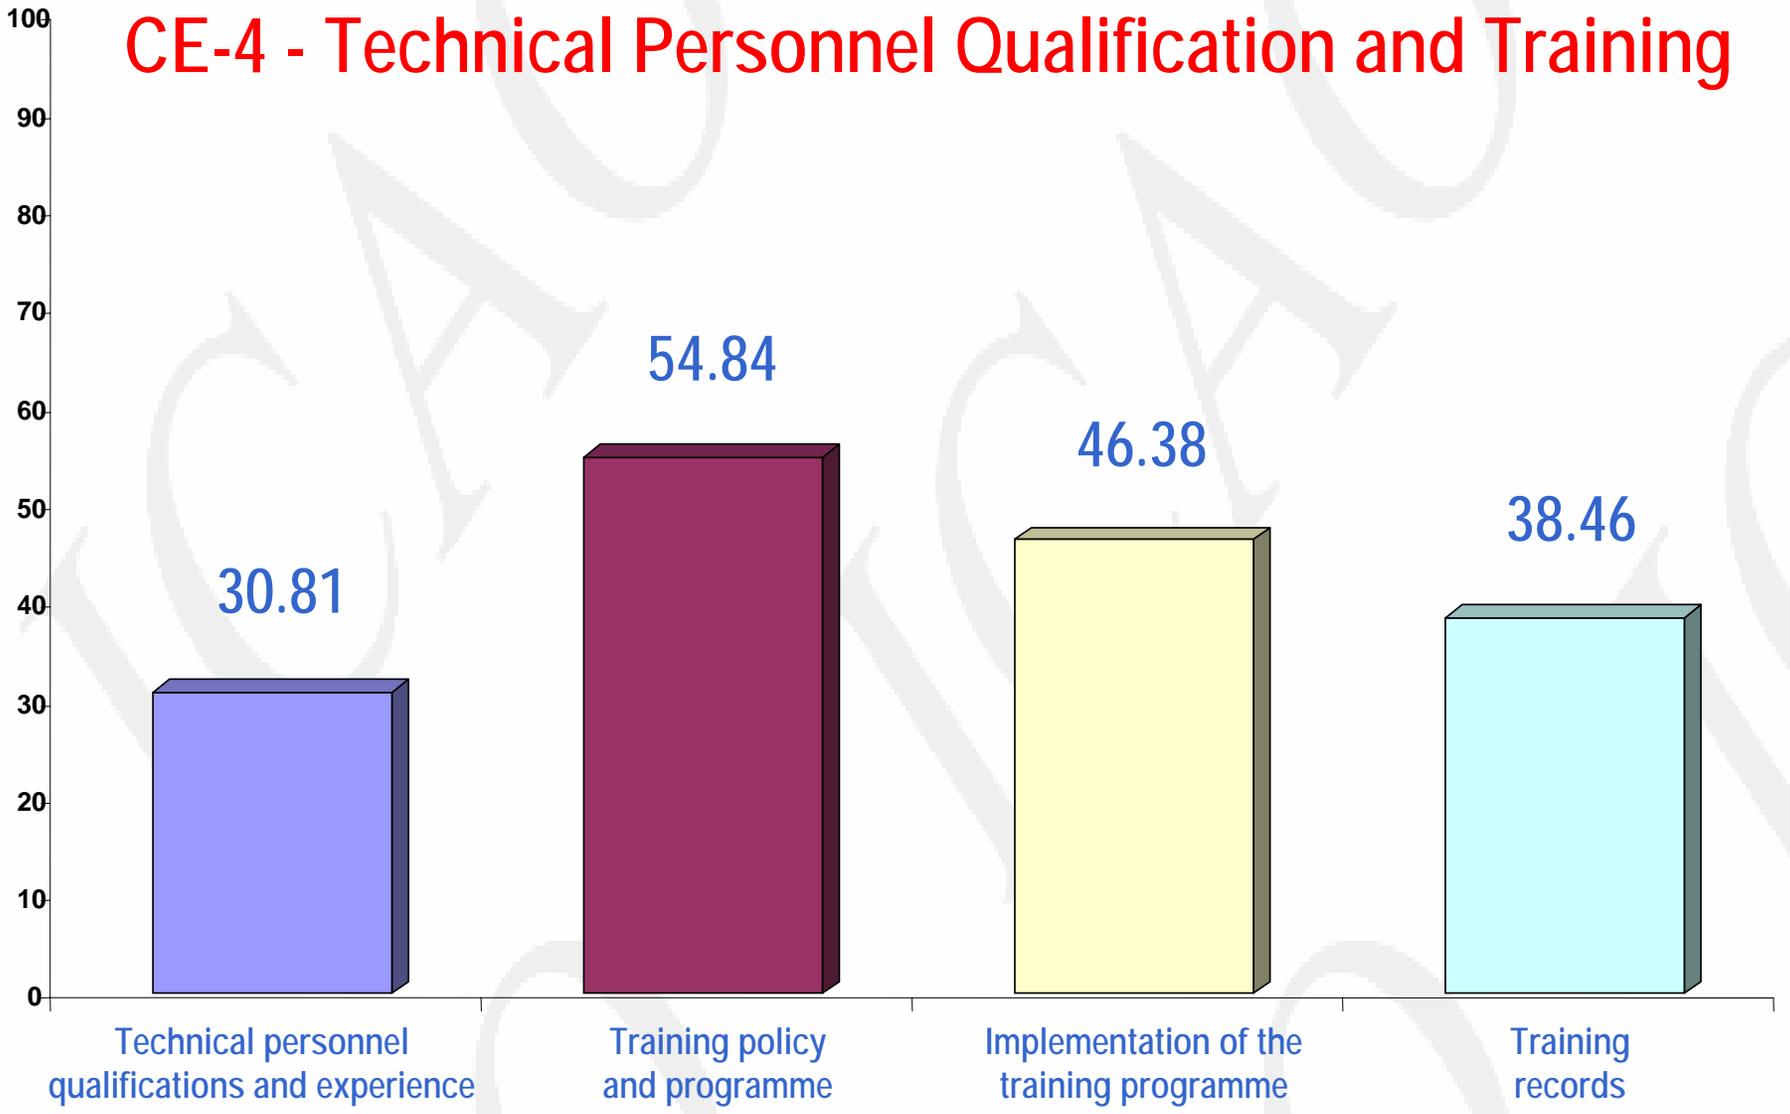

## CE-2 - Specific Operating Regulations

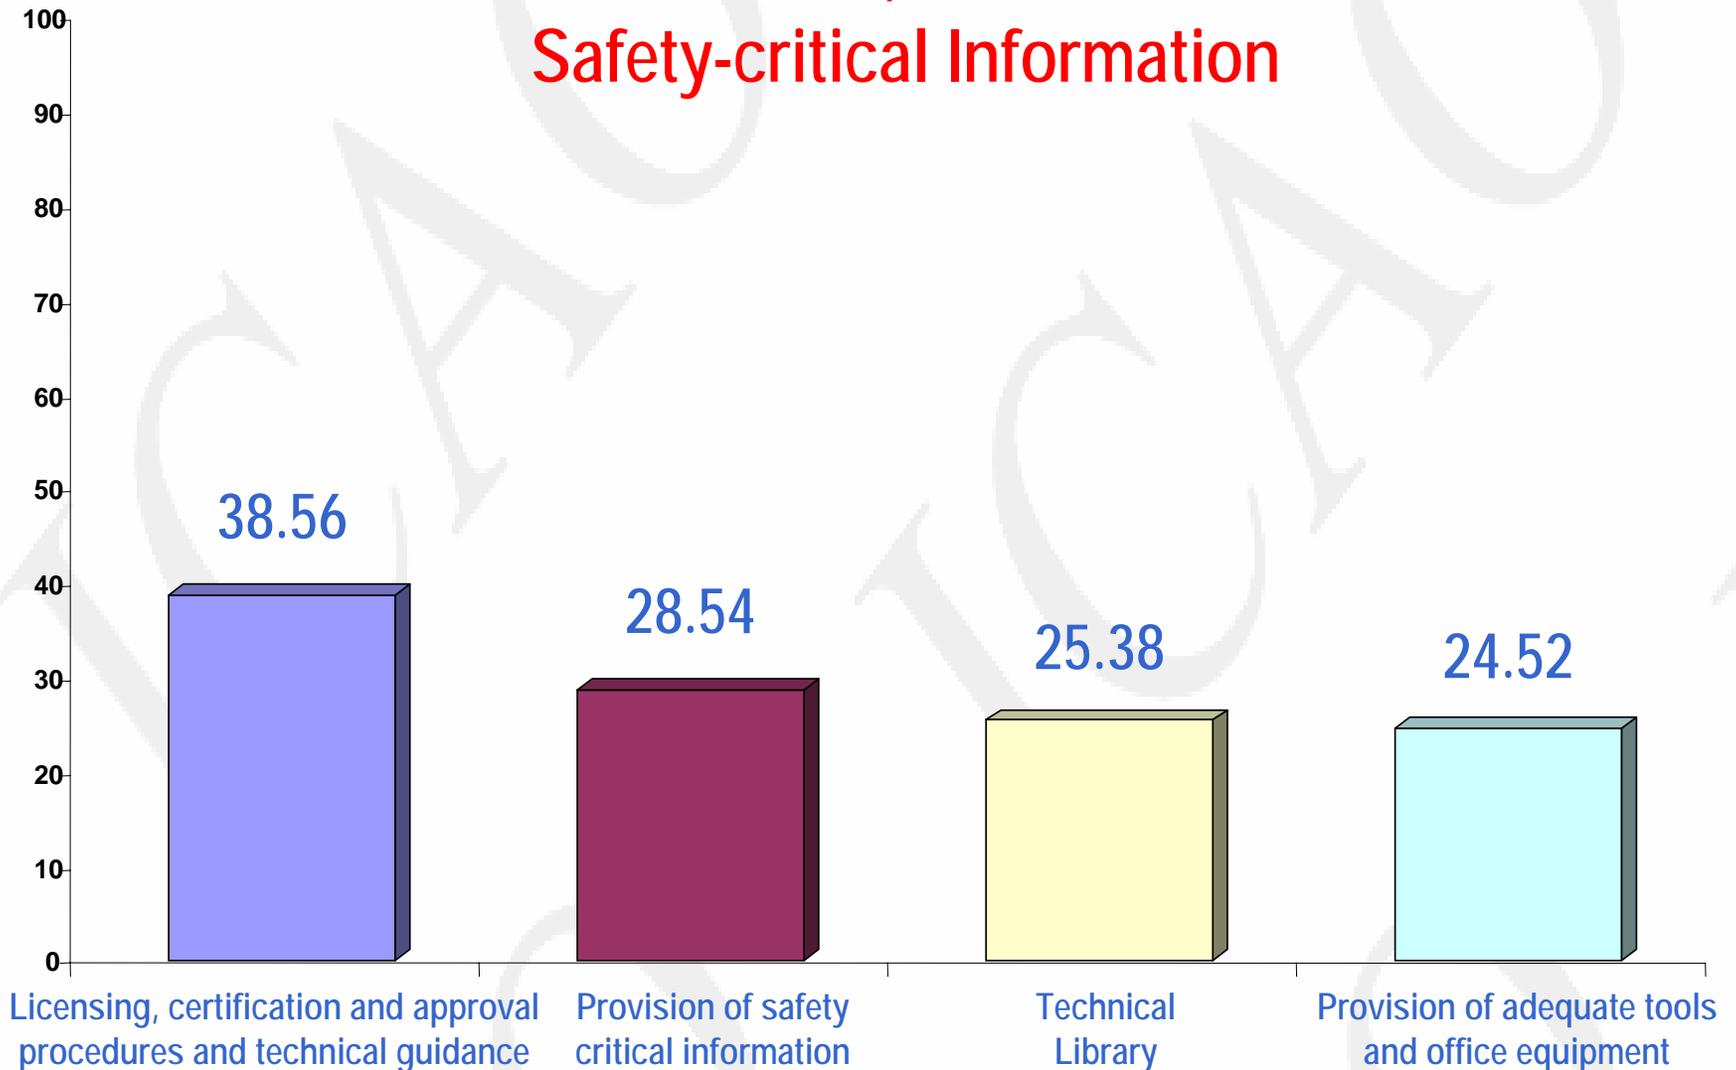

## CE-3 - State Civil Aviation System and Safety Oversight Functions

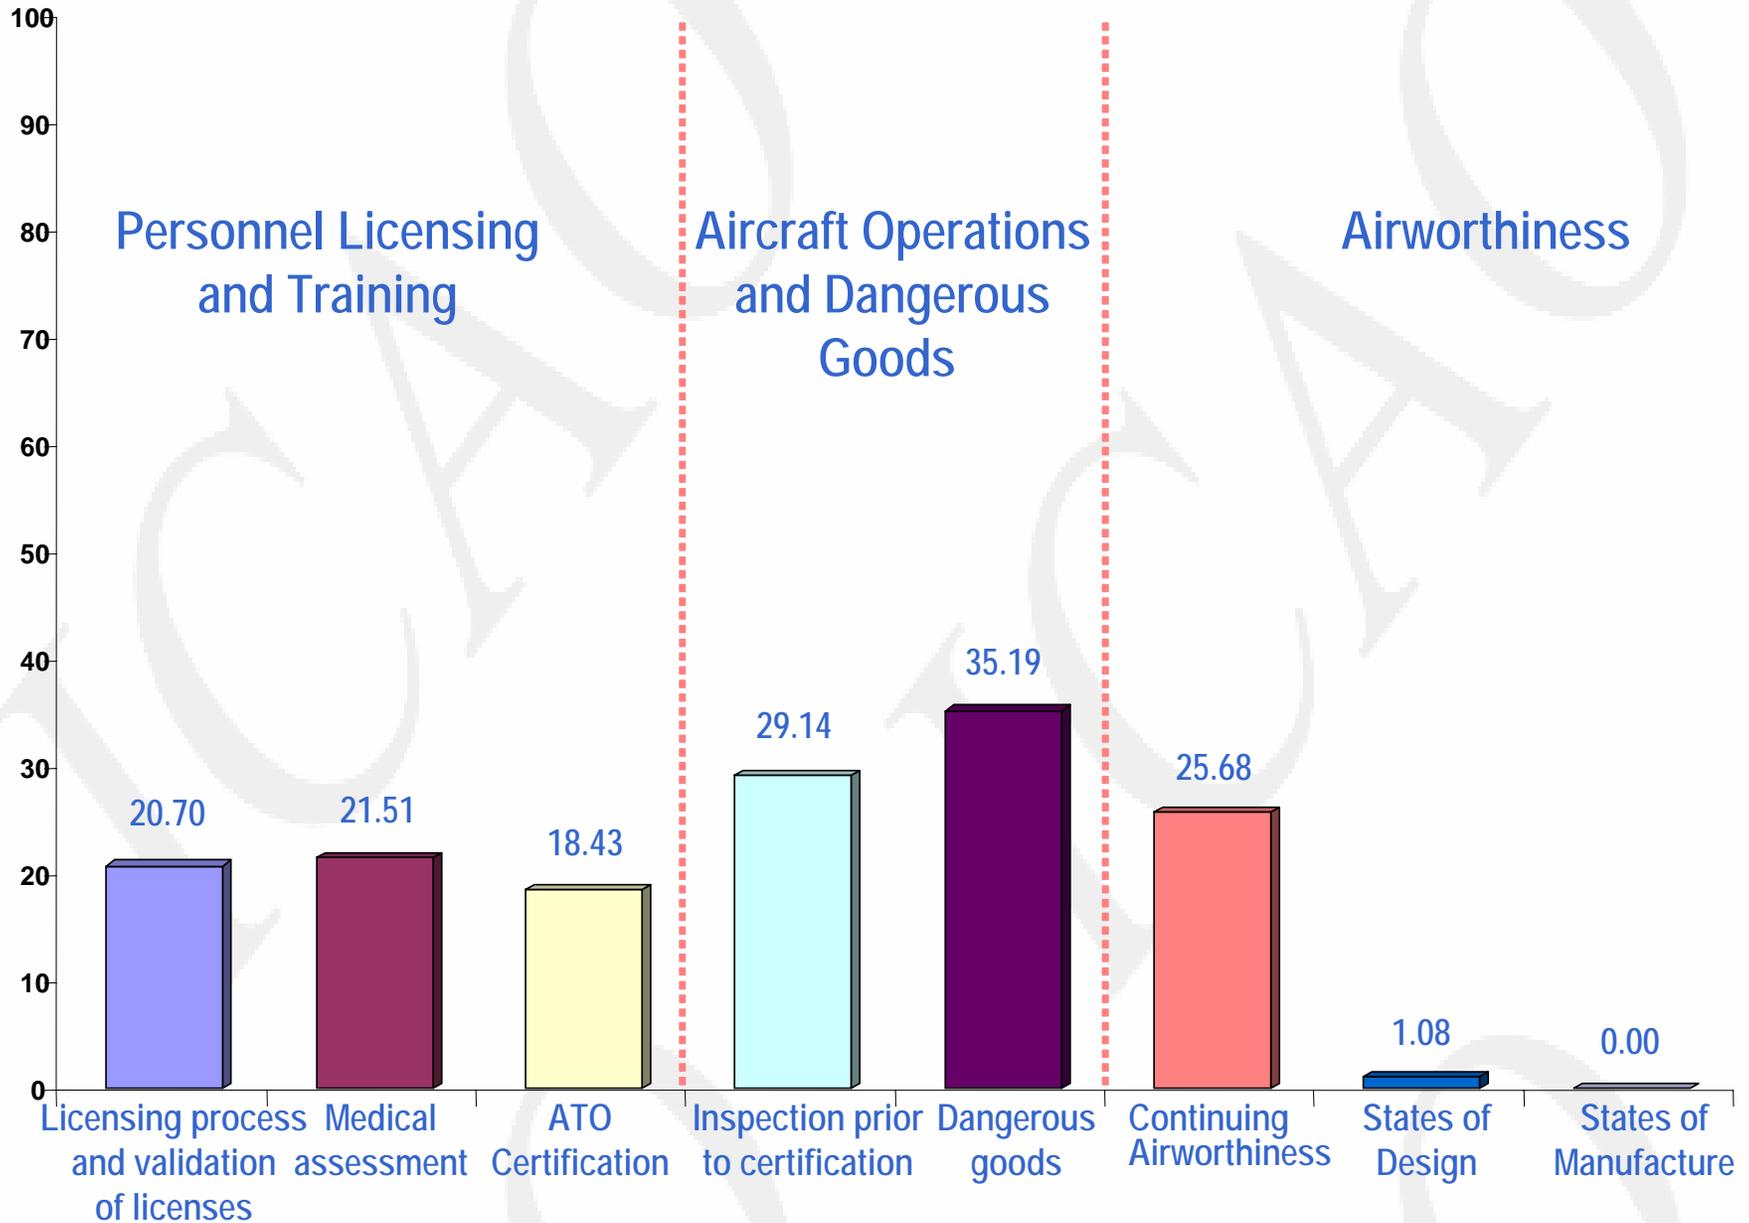

# CE-4 - Technical Personnel Qualification and Training

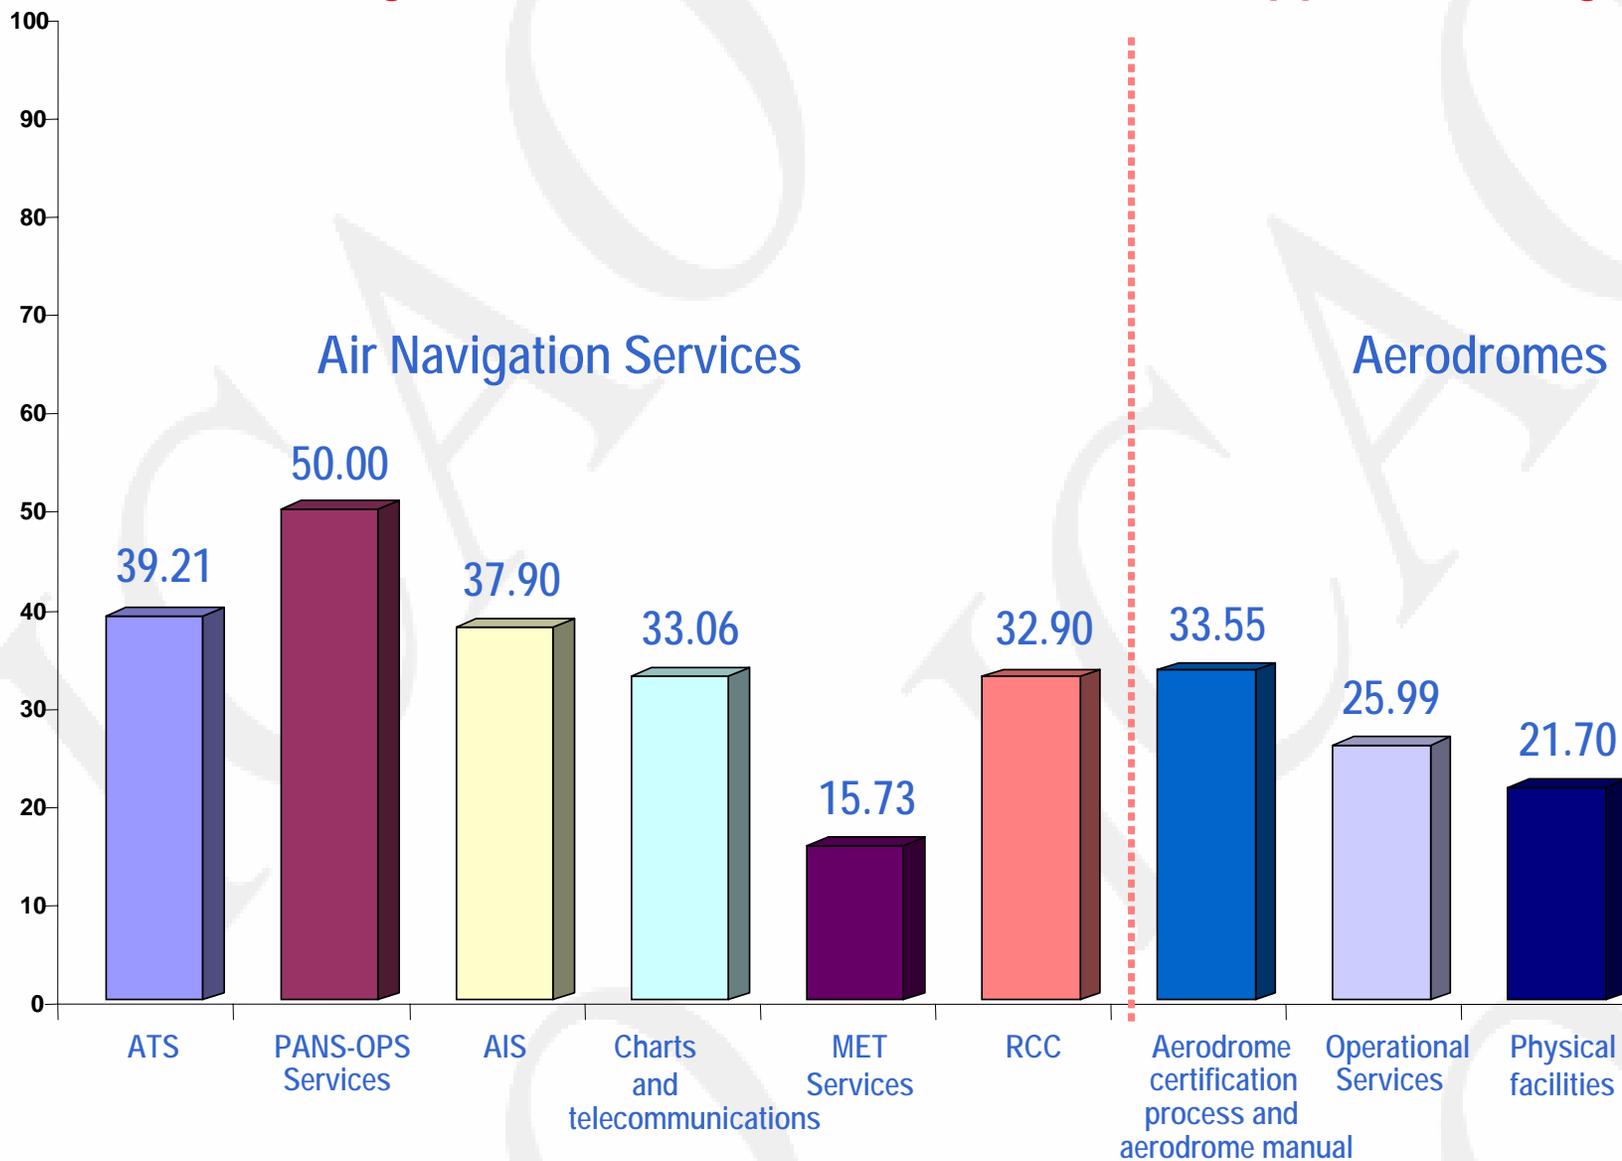

# CE-5 - Technical Guidance, Tools and The Provision of Safety-critical Information

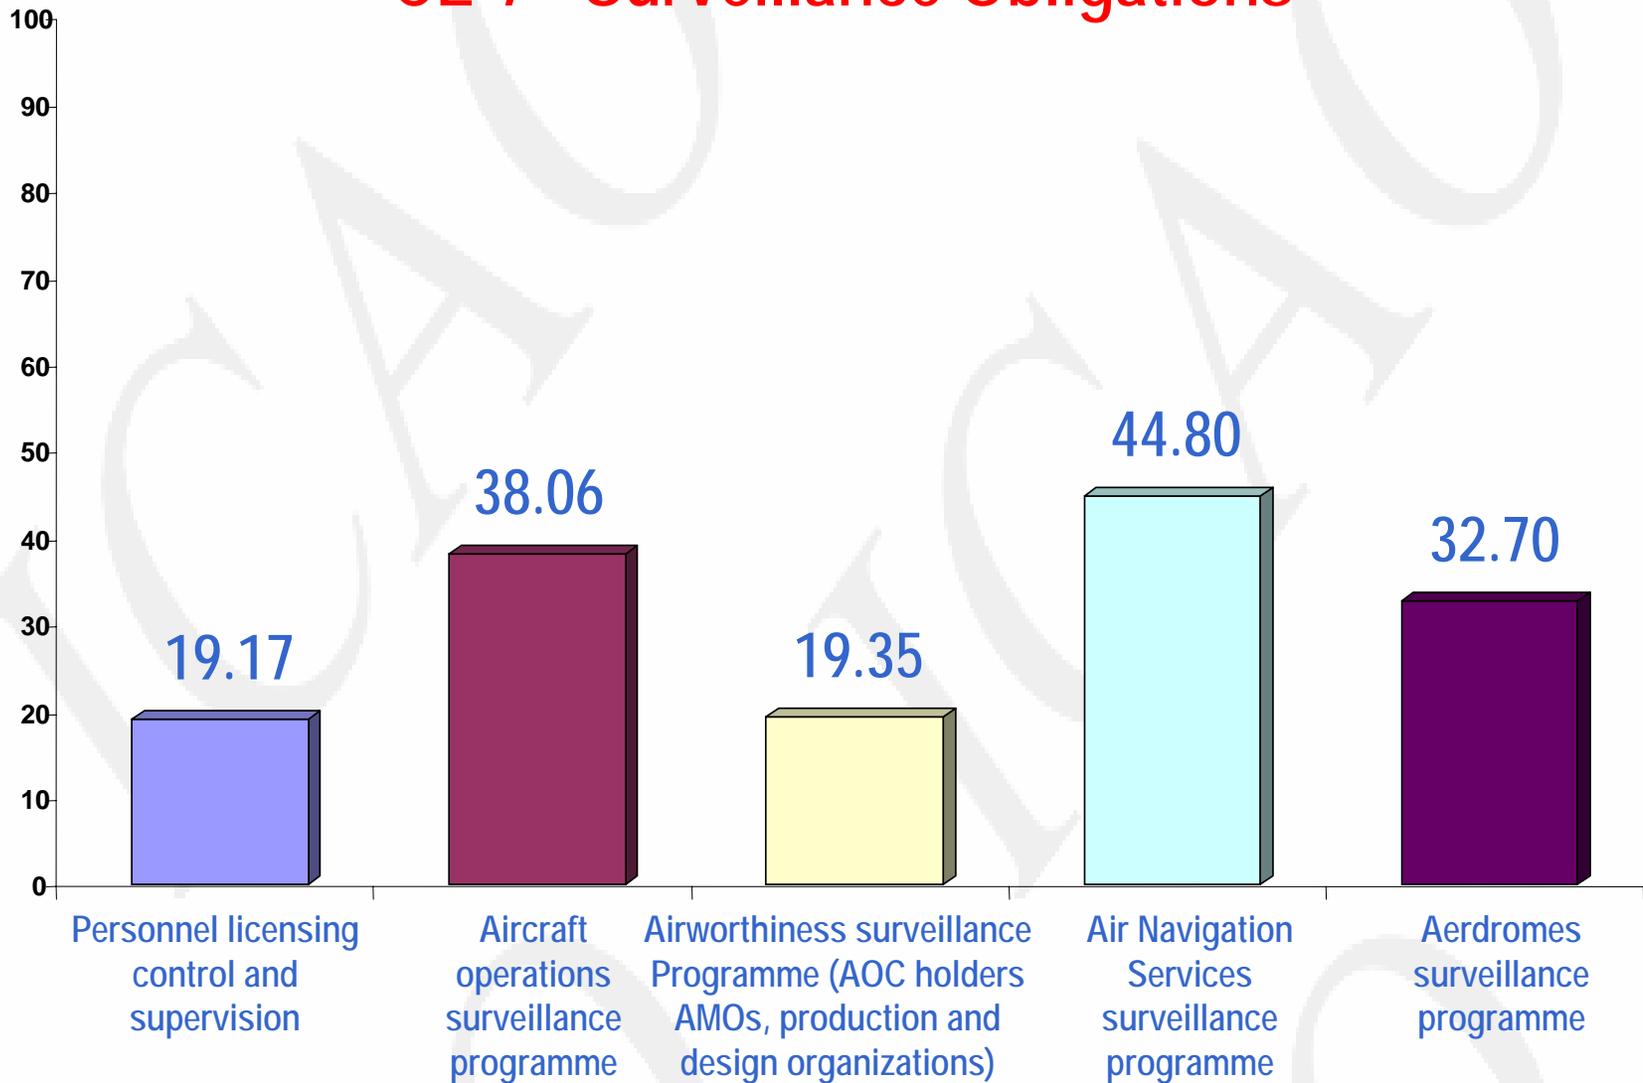

# CE-6 - Licensing, Certification, Authorization and Approval Obligations

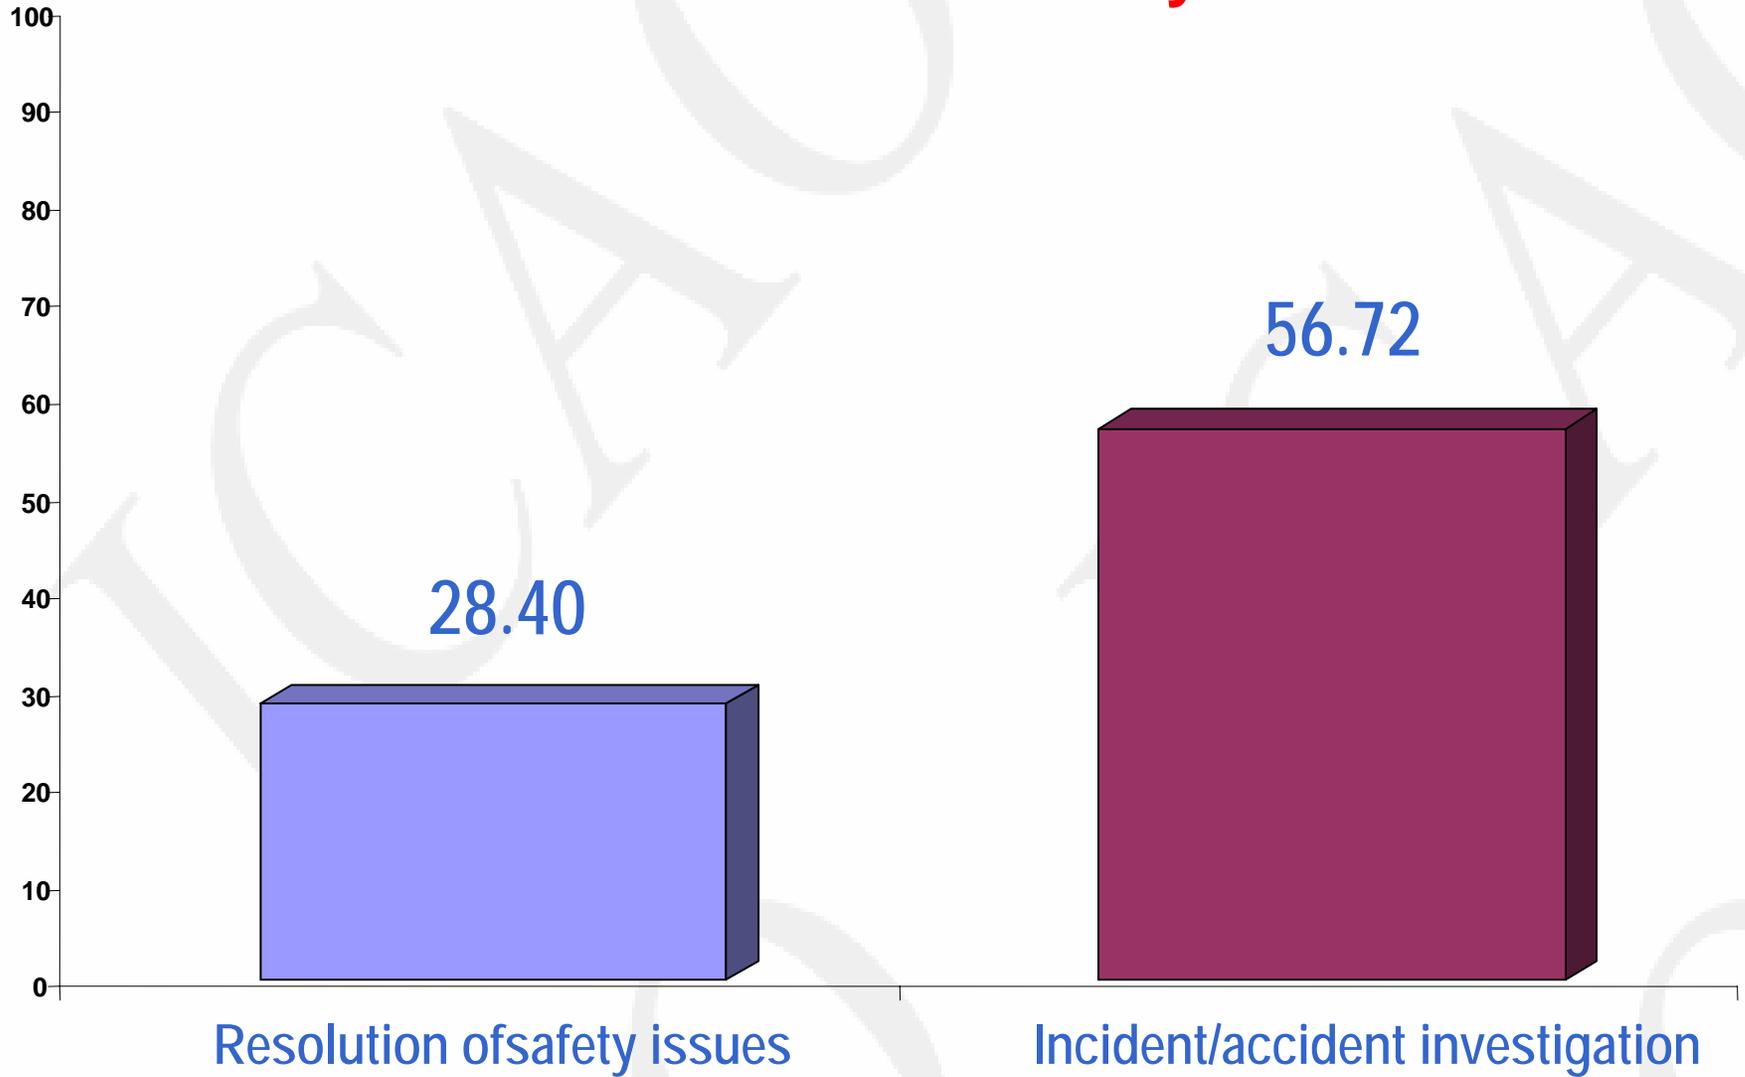

# CE-6 - Licensing, Certification, Authorization and Approval Obligations

## CE-7 - Surveillance Obligations

## CE-8 - Resolution Of Safety Concerns

# Review

---

- ❑ Areas of concern identified during CSA audits
- ❑ Analysis of audit results by critical element sub-groups
  - Primary aviation legislation
  - Specific operating regulations
  - State civil aviation system and safety oversight functions
  - Technical personnel qualification and training
  - Technical guidance, tools and the provision of safety-critical information
  - Licensing, certification, authorization and approval obligations
